There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Protect Your Family

Do you know that it's a mighty safe business policy to lay by a little for a rainy day? The best investment you can possibly make is to take out a policy in

The Northwestern Mutual Life Insurance Co.

Either straight life or endowment. You are then laying up a little all the time, and besides you have the assurance that should anything happen to you, your wife and babies, mother or sweetheart, as the case may be, will be left with an estate for their care and protection.

Don't put it off. Right now is the safe time. See about a policy before it is too late.

The more serious the purchase of a car is to your family, the more seriously you should consider Overland.

Consider what a guarantee it is to own a car backed by a company with \$68,000,000 assets; with an army of workmen that would populate a good sized city; with acres and acres of modern factories, and more than 4,000 dealers and branches.

The magnitude of The Willys-Overland Company is due to its management: due to the practical policy of utilizing prodigious production as a means to higher quality and lower prices.

The Willys-Overland Company guards its obligation to the owners of its cars as seriously as a conservative bank protects the

interest of its depositors, large and small.

The Willys-Overland is predicated upon the need for cars of beauty, comfort and convenience in addition to long-lived utility.

The average family can participate in the luxuries of motoring because hundreds of thousands of other owners enable The Willys-Overland Company to distribute and bring down costs.

Such a car as the Overland Big Four would never have been possible at such a price as \$895 had it not been for over 300,000 similar Overlands which have already gone into service.

Come in and see the Overland Big Four and the most comprehensive line of motor cars ever built by any one producer.
